Фарма за цвеќиња

И.З. Китка е семејна фирма која своите почетоци ги бележи уште во 1997 година. Нешто кое првенствено беше хоби на еден член од семејството Весковски, се преточи во мал семеен бизнис кој денес прерасна во сериозен деловен субјект во областа на хортикултурата во Македонија.

Тоа што е сега Китка не е последица на среќа и случаен сплет на настани туку резултат на долгорочно, систематско, упорно надградување и посветеност на работата.

Farm for flowers

.I.A. Kitka is a family firm which marks its beginnings since 1997. Something that originally was just a hobby to one of the members of the family Veskovski, turned out to be a small family business which today evolved in a serious business subject in Macedonia's horticulture.

What "Kitka" represents today is not a result of luck and random knot of events but a result of long-term, systematic, persistent upgrading and dedication to the work.

Descriptive details and numbers quoted here are intended as a general guideline.

	Silver gray leaf Сребрено-сив лист		Standing Сточко цвеќе		Full sun Целосно на сонце
	Bonzed leaf Бронзен лист		Cushion plant Грмушесто цвеќе		Half shade Половина сенка
	Green leaf Зелен лист		Ground cover Покривка		Shade Сенка
	Dark leaf Темен лист		Free flowering Слободно цветање		Temperature Температура
	Leaf zone Шарен лист		Scented Миризливост		Heat tolerant Толерантни на топлина
	Single flower Единечен		Pot Сакиско		Growth Раст
	Double Flower Дупли цвет		Cool crop Цвеќе за ладно		Container Жардињера
	Flower size Големина на цвет		Bed За садење во леа		Balcony Балконско
	Height Висина		Branching Разгранетост		Hanging Висечко цвеќе

Описните детали и броеви наведени тука се наменети како општ водич
